Eliminate Overflows • Conserve Water • Save Money

Toilet Guardians Are...

- Designed for all conventional tank-toilets.
- The result of 10 years of extensive research and testing.
- Equipped with a powerful TI microprocessor.
- Required to pass 72 inspections and tests.
- Reliable, durable, highest quality, long lasting.
- Covered by a 2-year manufacturer's warranty.
- Very easy to install with simple push-button operation.
- Easy to clean, with quickly detachable sensors.
- Powered by single coin cell battery w/5 year + life.

Stop Overflows and Leaking Toilets Automatically

- Eliminate toilet overflows. Saves thousands of dollars of cleanup, repairs, and property replacement.
- Detect and stop leaking toilets, reducing water and sewer costs.
- Stops water flow to the problem toilet only.
- Prevent mold growth due to toilet overflows and leaks.
- Resume normal water flow with a simple knob turn.
- **GREAT RETURN ON INVESTMENT (ROI)**. Often realized within one year just in water savings!

Toilet Guardian Components

Attaches to the fill valve directly under the tank. Simply remove the fill line, attach the Toilet Guardian and install the sensors.

Main Controller

- Ceramic disc valve system.
- Activates LCD icon for ID and optionally sounds alarm.
- Resumes water flow with a single knob turn.
- 5 year battery life on a common, single, replaceable, 3V lithium battery.
- **STOPS PROBLEMS BY QUICKLY SHUTTING OFF TOILET WATER FLOW !!**

Bowl Sensor

- Detects rising water level and sends signal to controller to **immediately** shut off water to the toilet.
- Chemical resistant sensor removes easily for cleaning.
- Hides out of the way and attaches to the seat bolt.
- In most cases **NO WATER HITS THE FLOOR !!**

Tank Sensor

- ID's a flush and uses changing levels in the tank that are not flushes to detect:
 - Flapper leaks
 - Tank Leaks
 - Stuck Flappers
 - Leaky Fill Valves
 - Stuck Fill Valves
- Optionally shuts off water, ID's the problem on an LCD screen and sounds an alarm.
- **CAN SAVE UP TO 4500 GALLONS IN ONE DAY !!**
